

**Product Name:** 1M Length Waterproof Temperature Sensor Digital Thermal Probe DS18B20 Sensor

**Product Description:**

- 3. High quality stainless steel tube encapsulation waterproof moistureproof prevent rust.
- 4. Stainless steel shell 6\*50mm.
- 5. Power supply range: 3.0V to 5.5V.
- 6. Operating temperature range: -55° C to +125° C (-67° F to +257° F).
- 7. Storage temperature range: -55° C to +125° C (-67° F to +257° F).
- 8. Accuracy over the range of -10° C to +85° C:  $\pm 0.5^{\circ}$  C.
- 9. No other components, unique single bus interface.
- 10. Output lead: red (VCC), yellow(DATA) , black(GND).
- 11. Cable length: 100 cm.

**Package Included**

Packing List	
1/2/5/10 PCS x NEW Waterproof Digital Thermal Probe or Sensor DS18B20 Length: 1M
